ABOUT THE STUDENT

Candidate Profile

Roll Number

25SCS1003003069

Institute

IILM University, Greater Noida, UP

Programme

B.Tech CSE, Batch 2025–2029

Internship Domain

Social Media Marketing

Duration

Weeks | August 2026

ABOUT THE PROGRAM

IGCSEMark

IGCSEMark is an educational technology platform focused on helping IGCSE students prepare more effectively through digital practice and automated grading. The platform allows students to practice papers, submit answers, receive marks, and track their performance.

During the internship, the focus was on promoting the platform through social media content, Instagram Reels, product demonstrations, and digital marketing campaigns

Educational Technology

Automated Grading

Social Media Marketing

Making Educational Technology More Engaging

Having a useful educational platform is not enough to reach students in today's highly competitive digital environment. Students consume large amounts of short-form content, making it important for educational platforms to communicate their value quickly and creatively.

IGCSEMark needed engaging social media content that could clearly demonstrate its features while maintaining a visually appealing and non-repetitive format.

The internship addressed this challenge through a practical content workflow:

The internship addressed this challenge through a practical content workflow:

What the Internship Set Out to Achieve

Social Media Content

Create engaging content to promote IGCSEMark.

Instagram Reels

Develop and edit short-form promotional videos.

Website Promotion

Showcase IGCSEMark and its key features.

Product Demonstration

Visually demonstrate past-paper practice and automated marking.

Content Strategy

Develop creative and varied approaches to avoid repetitive content.

Brand Growth

Support social media growth, audience engagement, and brand marketing.

The Toolkit Behind the Internship

Video Editing

Creating and refining Instagram Reels.

Canva

Designing supporting visual and promotional content.

Instagram

Short-form content and social media promotion.

Screen Recording

Demonstrating the IGCSEMark website and its features.

WhatsApp

Communication, coordination, feedback, and content discussions.

IGCSEMark Website

Understanding and showcasing the platform's functionality.

Content Strategy

Planning hooks, visuals, messaging, and calls to action.

Visual Storytelling

Using transitions, pacing, text, and product demonstrations.

From Product Features to Social Media Content

The 4-Week Learning Journey

WEEK

Introduction & Content Understanding

Understanding IGCSEMark, its target audience, website features, and social media requirements.

WEEK

Promotional Content & Reel Creation

Developing Reel concepts, scripts, visual sequences, transitions, and promotional videos.

WEEK

Product Demonstration

Creating content around past papers, automated marking, scores, progress tracking, and paper history.

WEEK

Marketing & Final Content

Developing promotional campaigns, special-offer content, CTAs, and refining final content.

EXPECTED OUTCOMES

Skills & Capabilities Gained

- ✓ Practical understanding of digital and social media promotion.
- ✓ Ability to plan creative and audience-focused content.
- ✓ Hands-on experience creating and editing Instagram Reels.
- ✓ Using transitions, pacing, text, and visuals to communicate ideas.
- ✓ Understanding how product features can be converted into marketing content.
- ✓ Creating content designed to capture and retain student attention.
- ✓ Exposure to promotional offers, CTAs, and campaign-based content.
